

Job Description

Environmental Specialist

Job Title Environmental Specialist
Department EHS Department
Reporting to Process Safety Manager
Location Standish Site
Hours of Work 35 hours per week
Contract Permanent [6 Month probation period]

Job purpose Ensuring compliance with government and legal regulations through policy enforcement or adherence to legal guidelines.

To ensure the effectiveness of the EHS Department. To contribute to the executive decision-making processes to ensure a commitment to achieve progressively higher standards within the company and move it towards being the best in its field of activities and to be an advocate for improvement and change across all its functions and at all levels.

To promote a positive climate in which the EHS department is seen by management, employees, neighbours, customers, and other off-site agencies as being fundamental to the company's day to day operations. Ensuring that policies, programmes, systems, procedures and registrations are developed and maintained to meet company and regulatory environmental assurance requirements.

To ensure current awareness with relevant environmental issues is maintained through liaison with the Chemical Industries Association and other organisations.

- Responsibilities**
- Identify new business opportunities to improve the environmental management system
